

Senior Machine Learning Engineer Job Description

We are looking for a highly skilled Senior Machine Learning Engineer who will be responsible for designing, deploying, and optimizing advanced machine learning systems. You will work closely with data scientists, engineers, and stakeholders to build scalable and production-ready AI solutions while contributing to system architecture and mentoring junior engineers.

A bachelor's degree in computer science, data science, artificial intelligence, or a related field is required. Candidates should have 4 to 7 years of experience in machine learning, software engineering, or related roles.

Senior Machine Learning Engineer Responsibilities:

- Designing and implementing advanced machine learning models and systems.
- Building scalable and efficient ML pipelines for production environments.
- Deploying and monitoring machine learning models in real-world applications.
- Collaborating with data scientists to improve model performance and accuracy.
- Integrating ML solutions into applications and large-scale systems.
- Optimizing data processing and model inference performance.
- Ensuring system scalability, reliability, and maintainability.
- Debugging and improving complex ML systems.
- Mentoring junior engineers and supporting team development.
- Staying updated with the latest advancements in machine learning and AI.

Senior Machine Learning Engineer Requirements:

- A bachelor's degree in computer science, data science, artificial intelligence, or a related field.
- 4 to 7 years of experience in machine learning or software engineering.
- Strong proficiency in Python and software development practices.
- Experience with machine learning frameworks such as TensorFlow, PyTorch, or scikit-learn.
- Solid understanding of data structures, algorithms, and system design.
- Experience with cloud platforms and ML deployment tools.
- Knowledge of data pipelines, distributed systems, and scalability.
- Strong problem-solving and analytical skills.
- Excellent communication and teamwork abilities.
- Leadership and mentoring skills.
