SUMMARY

Full-stack developer and final-year Computing & Digital Technologies student specializing in Media Informatics & Mixed Reality (Graduating 2025). Experienced in building full-stack applications, REST APIs, React frontends, database-driven systems, and AI-powered prototypes. Delivered production websites, optimized performance, improved system reliability, and integrated cloud-based and AI solutions. Strong problem-solving mindset, fast learner, and adaptable in cross-functional international teams. Certified in AI Fluency (Anthropic).

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PHP, SQL, HTML, CSS

Frameworks & Tools: React, Node.js, Express.js, Next.js (basic), MongoDB, MySQL, Git

Core Skills: REST APIs, Authentication & Authorization, AI/ML Prototyping, Database Design, Deployment, OOP, Debugging & Refactoring

Software: VS Code, Cisco Packet Tracer, Microsoft Office, Canva

Soft Skills: Leadership, Communication, Teamwork, Agile Planning

Languages: Arabic (Native), English (C2), German (A1), French (A1)

EXPERIENCE

Software Engineering Intern — Siscom Integrated Solutions, UAE (Remote)

Jul 2025 – Sep 2025

- Refactored legacy code and optimized API performance, improving reliability and maintainability.
- Supported system integration and software testing across multiple environments.
- Identified and resolved bugs, contributing to cleaner, more stable releases.
- Participated in Agile sprints and improved development workflows.

Web Developer — Siscom UAE (Remote)

2024

- Designed, developed, and deployed the official corporate website using HTML, CSS, JavaScript, and PHP.
- Improved page load speed by 30% through optimized assets and clean code.
- Built responsive UI/UX components and enhanced accessibility across devices.
- Implemented backend form handling and database connectivity using PHP and MySQL.

Online Fitness Coach — Freelance

2022 – Present

- Managed fitness and nutrition programs for 30+ clients, using data dashboards to track progress and retention.
- Designed tools to streamline client workflows and improve monitoring.

Sales & Reception Staff — FITHOUSE Gym, Giza

2021 – 2022

- Improved member scheduling, communication, and workflow efficiency.

PROJECTS

- Company Website — Siscom Integration

HTML, CSS, JavaScript, PHP, MySQL

 - Developed a production-ready website with backend data handling and optimized performance.
 - Implemented secure form processing, modular code structure, and SEO enhancements.

- Sentiment Analysis App — AI & Machine Learning

Python, ChatGPT API, Data Mining

 - Built a sentiment classifier achieving **85% accuracy** on social media dataset analysis.
 - Integrated API calls and automated data preprocessing.

- Space Invaders Clone — Python Game Development

Python, Pygame, OOP

 - Developed a full game with collision detection, scoring, and real-time event handling.

- Database Design Project — SQL

 - Designed a normalized relational database with 1,000+ records, improving query efficiency by 40%.

- Computer Networks Simulation — Cisco Packet Tracer

 - Built secure routed network topology with VLANs and security protocols; scored A-grade.

CERTIFICATIONS & DEVELOPMENT

- AI Fluency: Framework and Foundations** – Anthropic / University College Cork, 2025
- Watson Assistant: Build AI Chatbots** – IBM SkillsBuild, 2025
- Fingerprint Soft Skills Development Program** – AIESEC Romania, 2025

EDUCATION

- BSc in Computing & Digital Technology** — ESLSA University, Giza, Egypt
Specialization: Media Informatics & Mixed Reality
GPA: 8.5/10 | Expected Graduation: 2025
- High School Diploma** — Pioneers American High School, Giza
GPA: 3.88/4.0 | Graduated: 2023
