SUMMARY

Final-year BSc Computing & Digital Technologies student specializing in Media Informatics & Mixed Reality (Graduating 2025). Skilled in full-stack web development, Python, SQL, and AI prototyping, with hands-on experience delivering software and web projects from concept to deployment. Proven record of accomplishment of improving system performance, enhancing UX/UI, and integrating AI-driven features. Certified in AI Fluency (Anthropic) and trained in global soft skills through AIESEC Romania. Recognized for problem-solving, adaptability, and strong collaboration in international tech environments.

TECHNICAL SKILLS

Languages & Tools: HTML, CSS, JavaScript, PHP, Python, SQL, Git, Pygame

Frameworks: React (optional), Node.js (optional)

Core Competencies: Full-Stack Development, AI/ML Prototyping, Database Design, Networking, Mixed Reality (XR)

Software: Microsoft Office Suite, Canva

Soft Skills: Leadership, Communication, Problem-Solving, Teamwork, Agile Project Planning

Languages: Arabic (Native), English (C2), German (A1), French (A1)

EXPERIENCE

Software Engineering Intern – Siscom Integrated Solutions, UAE | Remote Jul 2025 – Sep 2025

- Collaborated with the development team to debug, refactor, and enhance existing codebases, improving reliability and maintainability.
- Assisted in system integration and software testing, ensuring seamless interoperability between client solutions.
- Supported QA processes by identifying and resolving functional defects across multiple environments.
- Demonstrated initiative by contributing to development sprints, improving team efficiency and code quality.

Web Developer – Siscom UAE | Remote 2024

- Designed and deployed the corporate website for Siscom Integration, increasing online engagement by 30%.
- Developed SEO-optimized, responsive pages using HTML, CSS, JavaScript, and PHP, improving load speed by 30%.
- Enhanced mobile usability and accessibility, driving a better user experience across all devices.

Online Fitness Coach – Freelance 2022 – Present

- Managed fitness and nutrition programs for 30+ clients, achieving measurable results.
- Created progress-tracking dashboards to visualize client performance and retention.

Sales & Reception Staff – FITHOUSE Gym, Giza 2021 – 2022

- Streamlined member scheduling and internal communications, improving workflow efficiency.

PROJECTS

Company Website – Siscom Integration | HTML, CSS, JavaScript, PHP

- Developed and deployed the official company website as a full-stack solution with both frontend and backend integration.
- Built responsive UI/UX components, optimized for SEO and performance (30% faster load time).
- Implemented backend logic for form handling, data storage, and client requests using PHP and MySQL.
- Integrated security best practices and modular code structure for easier maintenance and scalability.

Space Invaders Clone – Python Game Development | Python, Pygame, OOP

- Engineered an interactive game with real-time event handling, collision detection, and score tracking.

Sentiment Analysis App – AI & Machine Learning | Python, ChatGPT API, Data Mining

- Developed an AI-based sentiment classifier for social media posts with 85% accuracy.

Database Design Project | SQL

- Designed a normalized relational database handling 1,000+ records, boosting query efficiency by 40%.

Computer Networks Simulation | *Cisco Packet Tracer*

- Built a secure routed network topology, implementing VLANs and security protocols; achieved A-grade performance evaluation.

CERTIFICATIONS & DEVELOPMENT

- **AI Fluency: Framework and Foundations** – Anthropic / University College Cork, 2025
- **Watson Assistant: Build AI Chatbots** – IBM SkillsBuild, 2025
- **Fingerprint Soft Skills Development Program** – AIESEC Romania, 2025

EDUCATION

- **BSc in Computing & Digital Technology** – *ESLSCA University, Giza, Egypt*
Specialization: Media Informatics & Mixed Reality | GPA: 8.5/10 | Expected Graduation: 2025
- **High School Diploma** – *Pioneers American High School, Giza, Egypt*
GPA: 3.88/4.0 | Graduated: 2023
