

IT Project Manager Job Description

We are looking for an organized and strategic IT project manager who, along with our engineering and business teams, will be responsible for planning, executing, and delivering IT projects successfully. Duties will include but are not limited to managing timelines, coordinating teams, and ensuring project goals are met within scope, budget, and schedule. You will collaborate with stakeholders, developers, and management to align project outcomes with business objectives.

A bachelor's degree in computer science, information technology, business, or a related field is required. Candidates should have 3 to 6 years of experience in IT project management or related roles.

IT Project Manager Responsibilities:

- Planning, executing, and managing IT projects from initiation to completion.
- Defining project scope, goals, timelines, and deliverables.
- Coordinating cross-functional teams including developers, designers, and stakeholders.
- Monitoring project progress and ensuring timely delivery.
- Managing project risks, issues, and changes.
- Communicating project status, updates, and risks to stakeholders.
- Ensuring projects are delivered within budget and scope.
- Applying project management methodologies such as Agile or Waterfall.
- Maintaining project documentation and reports.
- Continuously improving project management processes.

IT Project Manager Requirements:

- A bachelor's degree in computer science, information technology, business, or a related field.
- 3 to 6 years of experience in IT project management or related roles.
- Strong understanding of project management methodologies such as Agile, Scrum, or Waterfall.
- Familiarity with project management tools such as Jira, Trello, or Microsoft Project.
- Basic understanding of software development processes and technologies.
- Strong leadership, organizational, and time management skills.
- Excellent communication and stakeholder management abilities.
- Ability to manage multiple projects and priorities.
- Strong problem-solving and decision-making skills.
- Ability to work in fast-paced and dynamic environments.
