

Junior Cloud Engineer Job Description

We are looking for a motivated and detail-oriented junior cloud engineer who, along with our engineering and operations teams, will be responsible for assisting in the deployment, management, and monitoring of cloud-based systems. Duties will include but are not limited to supporting cloud infrastructure, automating processes, and ensuring system reliability. You will collaborate with senior engineers and DevOps teams to deliver scalable and efficient cloud solutions.

A bachelor's degree in computer science, information technology, or a related field is required. Candidates should have 0 to 2 years of experience in cloud computing, DevOps, or related roles, including internships.

Junior Cloud Engineer Responsibilities:

- Assisting in the deployment and management of cloud infrastructure on platforms such as AWS, Azure, or Google Cloud.
- Supporting cloud-based applications and services.
- Monitoring system performance and ensuring availability.
- Assisting in automating infrastructure and deployment processes.
- Collaborating with development and DevOps teams to support cloud operations.
- Troubleshooting and resolving basic cloud and infrastructure issues.
- Working with containerization tools such as Docker.
- Supporting CI/CD pipelines and deployment workflows.
- Documenting cloud configurations and processes.
- Learning and applying cloud technologies and best practices.

Junior Cloud Engineer Requirements:

- A bachelor's degree in computer science, information technology, or a related field.
- 0 to 2 years of experience in cloud computing, DevOps, or related roles or internships.
- Basic knowledge of cloud platforms such as AWS, Azure, or Google Cloud.
- Familiarity with Linux/Unix systems and command-line tools.
- Basic understanding of networking and system administration concepts.
- Familiarity with scripting languages such as Bash or Python.
- Basic knowledge of containerization tools such as Docker.
- Familiarity with version control systems such as Git.
- Strong problem-solving and analytical thinking skills.
- Good communication and teamwork abilities.
- Willingness to learn and grow in cloud technologies.
