

Junior VR Developer Job Description

We are looking for a motivated and creative junior VR developer who, along with our development and design teams, will be responsible for assisting in the creation of virtual reality applications and immersive experiences. Duties will include but are not limited to developing interactive environments, supporting VR application development, and learning emerging technologies. You will collaborate with senior developers and designers to build engaging and user-friendly VR solutions.

A bachelor's degree in computer science, game development, multimedia, or a related field is required. Candidates should have 0 to 2 years of experience in VR development, game development, or related roles, including internships.

Junior VR Developer Responsibilities:

- Assisting in the development of virtual reality applications and environments.
- Writing and testing code for interactive VR experiences.
- Supporting 3D environment creation and asset integration.
- Collaborating with designers and developers to build immersive solutions.
- Debugging and troubleshooting VR applications.
- Learning and applying VR/AR technologies and tools.
- Participating in testing and improving user experience.
- Integrating audio, visuals, and interactions into VR systems.
- Maintaining code quality and documentation.
- Staying updated with VR development trends and tools.

Junior VR Developer Requirements:

- A bachelor's degree in computer science, game development, multimedia, or a related field.
- 0 to 2 years of experience in VR development, game development, or related roles or internships.
- Basic knowledge of VR development platforms such as Unity or Unreal Engine.
- Familiarity with programming languages such as C#, C++, or JavaScript.
- Understanding of 3D graphics and interactive systems.
- Familiarity with version control systems such as Git.
- Strong problem-solving and analytical thinking skills.
- Good communication and teamwork abilities.
- Creativity and interest in immersive technologies.
- Willingness to learn and adapt to new tools and environments.
