

Lead Data Scientist Job Description

We are looking for an experienced and strategic Lead Data Scientist who will be responsible for leading data science initiatives, defining analytical strategies, and delivering high-impact solutions. You will manage a team of data scientists, oversee model development, and collaborate with stakeholders to drive business decisions through data.

A bachelor's degree in computer science, data science, artificial intelligence, statistics, or a related field is required. Candidates should have 6+ years of experience in data science, machine learning, or related roles, including leadership experience.

Lead Data Scientist Responsibilities:

- Leading the development of machine learning models and data-driven solutions.
- Defining data science strategies and aligning them with business goals.
- Managing and mentoring a team of data scientists.
- Overseeing data analysis projects and ensuring high-quality results.
- Collaborating with stakeholders to identify opportunities for data-driven improvements.
- Designing scalable data pipelines and workflows.
- Ensuring model performance, reliability, and deployment readiness.
- Reviewing models, code, and methodologies to maintain best practices.
- Communicating insights and strategies to technical and non-technical audiences.
- Staying updated with emerging trends and technologies in AI and data science.

Lead Data Scientist Requirements:

- A bachelor's degree in computer science, data science, artificial intelligence, statistics, or a related field.
- 6+ years of experience in data science or machine learning.
- Proven experience in leading teams or managing projects.
- Strong proficiency in Python or R.
- Expertise in machine learning frameworks such as scikit-learn, TensorFlow, or PyTorch.
- Advanced knowledge of statistics, probability, and data analysis.
- Experience with big data technologies and cloud platforms.
- Strong understanding of data pipelines, deployment, and scalability.
- Excellent leadership, communication, and problem-solving skills.
- Ability to drive innovation and strategic decision-making.
