

Quality Assurance (QA) Lead Job Description

We are looking for a highly experienced and strategic QA lead who, along with our development and product teams, will be responsible for leading quality assurance efforts and ensuring the delivery of high-quality software products. Duties will include but are not limited to defining QA strategies, managing testing processes, and guiding QA teams. You will collaborate with developers, product managers, and stakeholders to align quality goals with business objectives.

A bachelor's degree in computer science, software engineering, or a related field is required. Candidates should have 6 to 10+ years of experience in software testing or quality assurance, including leadership experience.

Quality Assurance (QA) Lead Responsibilities:

- Leading QA teams and managing testing processes across projects.
- Defining QA strategies, standards, and best practices.
- Overseeing manual and automated testing efforts.
- Ensuring software quality, performance, and reliability.
- Collaborating with development and product teams to define testing requirements.
- Managing test planning, execution, and reporting.
- Improving QA processes, tools, and methodologies.
- Monitoring defect trends and ensuring timely resolution.
- Mentoring QA engineers and fostering team development.
- Communicating quality metrics, risks, and improvements to stakeholders.

Quality Assurance (QA) Lead Requirements:

- A bachelor's degree in computer science, software engineering, or a related field.
- 6 to 10+ years of experience in software testing or quality assurance with leadership experience.
- Strong expertise in testing methodologies, tools, and frameworks.
- Experience with automated testing tools such as Selenium, Cypress, or Playwright.
- Proficiency in programming or scripting languages such as Python, Java, or JavaScript.
- Strong understanding of SDLC, Agile, and DevOps practices.
- Experience with performance and load testing is a plus.
- Familiarity with bug tracking tools such as Jira.
- Excellent leadership, communication, and decision-making skills.
- Strong analytical and problem-solving abilities.
