

RegTech Specialist (Regulatory Technology) Job Description

We are looking for a detail-oriented and knowledgeable RegTech specialist who, along with our engineering and compliance teams, will be responsible for developing and maintaining technology solutions that ensure regulatory compliance. Duties will include but are not limited to automating compliance processes, monitoring financial activities, and ensuring adherence to legal and regulatory requirements. You will collaborate with stakeholders, legal teams, and developers to deliver secure and compliant financial systems.

A bachelor's degree in computer science, finance, information technology, or a related field is required. Candidates should have 1 to 4 years of experience in RegTech, compliance, FinTech, or related roles.

RegTech Specialist Responsibilities:

- Developing and maintaining regulatory technology solutions.
- Automating compliance processes and reporting systems.
- Monitoring financial transactions to ensure regulatory compliance.
- Collaborating with legal and compliance teams to interpret regulations.
- Implementing systems to detect fraud, risks, and suspicious activities.
- Ensuring data security and privacy in compliance with regulations.
- Preparing compliance reports and documentation.
- Supporting audits and regulatory reviews.
- Staying updated with financial regulations and compliance standards.
- Improving efficiency of compliance workflows using technology.

RegTech Specialist Requirements:

- A bachelor's degree in computer science, finance, information technology, or a related field.
- 1 to 4 years of experience in RegTech, compliance, FinTech, or related roles.
- Understanding of financial regulations and compliance frameworks.
- Familiarity with data analysis tools such as SQL, Python, or Excel.
- Knowledge of financial systems, transaction monitoring, and reporting.
- Understanding of data security, privacy, and encryption standards.
- Strong analytical and problem-solving skills.
- Good communication and documentation abilities.
- Ability to work with cross-functional teams.
- Interest in regulatory technology and financial innovation.
