

FinTech (Financial Technology) Specialist Job Description

We are looking for a skilled and innovative FinTech specialist who, along with our engineering and finance teams, will be responsible for developing and maintaining technology-driven financial solutions. Duties will include but are not limited to building financial systems, integrating payment platforms, and ensuring secure and efficient financial transactions. You will collaborate with developers, financial analysts, and stakeholders to deliver scalable and reliable financial technology solutions.

A bachelor's degree in computer science, finance, information technology, or a related field is required. Candidates should have 1 to 4 years of experience in FinTech, software development, or financial systems.

FinTech Specialist Responsibilities:

- Developing and maintaining financial technology applications and platforms.
- Integrating payment gateways, APIs, and financial services.
- Ensuring secure processing of financial transactions and data.
- Collaborating with finance teams to understand business requirements.
- Implementing fraud detection and risk management mechanisms.
- Managing and optimizing transaction processing systems.
- Ensuring compliance with financial regulations and standards.
- Working with databases to manage financial data efficiently.
- Monitoring system performance and ensuring reliability.
- Staying updated with financial technologies and market trends.

FinTech Specialist Requirements:

- A bachelor's degree in computer science, finance, information technology, or a related field.
- 1 to 4 years of experience in FinTech, software development, or financial systems.
- Knowledge of programming languages such as Python, Java, or JavaScript.
- Familiarity with payment systems, APIs, and financial platforms.
- Understanding of financial concepts such as transactions, payments, and risk management.
- Knowledge of data security and encryption practices.
- Familiarity with databases and SQL.
- Strong analytical and problem-solving skills.
- Good communication and teamwork abilities.
- Interest in financial technologies and digital transformation.
