

Lead AI Research Scientist Job Description

We are looking for an experienced and visionary Lead AI Research Scientist who will be responsible for defining research strategy, leading advanced AI projects, and driving innovation in artificial intelligence. You will manage a team of researchers, guide experimental design, and collaborate with engineering teams to translate cutting-edge research into real-world applications.

A bachelor's degree in computer science, artificial intelligence, data science, or a related field is required. A master's or PhD is highly preferred. Candidates should have 7+ years of experience in AI research, machine learning, or related roles, including leadership experience.

Lead AI Research Scientist Responsibilities:

- Leading and defining AI research strategies and roadmaps.
- Managing and mentoring a team of AI researchers.
- Designing and overseeing complex research experiments.
- Developing novel algorithms and advancing state-of-the-art models.
- Publishing research findings in top-tier conferences and journals.
- Collaborating with engineering teams to deploy research into production systems.
- Identifying emerging trends and opportunities in AI.
- Reviewing research outputs and ensuring quality and impact.
- Communicating research insights to stakeholders and leadership.
- Driving innovation and long-term vision in AI initiatives.

Lead AI Research Scientist Requirements:

- A bachelor's degree in computer science, artificial intelligence, data science, or a related field (Master's or PhD preferred).
- 7+ years of experience in AI research or machine learning.
- Proven experience in leading research teams or large-scale AI projects.
- Strong proficiency in Python and scientific computing tools.
- Expertise in machine learning frameworks such as TensorFlow or PyTorch.
- Advanced knowledge of mathematics, statistics, and algorithms.
- Strong publication record in AI conferences or journals.
- Excellent leadership, communication, and problem-solving skills.
- Ability to drive strategic decisions and innovation.
- Passion for advancing artificial intelligence technologies.
