

Lead AR Developer Job Description

We are looking for an experienced and visionary Lead AR Developer who will be responsible for leading the design, development, and delivery of advanced augmented reality applications. You will guide a team of developers, define system architecture, and collaborate with designers and stakeholders to build high-performance and scalable AR solutions.

A bachelor's degree in computer science, software engineering, multimedia, or a related field is preferred. Candidates should have 6+ years of experience in AR/VR development, game development, or related roles, including leadership experience.

Lead AR Developer Responsibilities:

- Leading the development of augmented reality applications and immersive experiences.
- Managing and mentoring a team of AR developers.
- Designing system architecture for scalable and high-performance AR solutions.
- Collaborating with designers and stakeholders to define project requirements.
- Overseeing the development of interactive AR features and environments.
- Ensuring optimization for performance, latency, and responsiveness.
- Integrating AR SDKs such as ARKit, ARCore, or Vuforia.
- Conducting code reviews and enforcing best practices.
- Troubleshooting complex technical issues and ensuring system reliability.
- Staying updated with emerging AR technologies and industry trends.

Lead AR Developer Requirements:

- A bachelor's degree in computer science, software engineering, multimedia, or a related field (preferred).
- 6+ years of experience in AR/VR or game development.
- Proven experience in leading technical teams or projects.
- Strong experience with AR platforms such as ARKit, ARCore, or Vuforia.
- Proficiency in programming languages such as C#, C++, or JavaScript.
- Experience with Unity or Unreal Engine.
- Deep understanding of 3D graphics and spatial computing.
- Strong knowledge of UX design in augmented environments.
- Excellent leadership, communication, and organizational skills.
- Ability to manage multiple projects and deliver high-quality results.
