

Lead UI/UX Designer Job Description

We are looking for a highly experienced and strategic lead UI/UX designer who, along with our product and development teams, will be responsible for leading the design vision and execution of user interfaces and user experiences across digital products. Duties will include but are not limited to defining design strategies, guiding design teams, and ensuring high-quality, user-centered and consistent design solutions. You will collaborate with stakeholders, developers, and product managers to align design decisions with business goals and user needs.

A bachelor's degree in design, computer science, human-computer interaction, or a related field is required. Candidates should have 6 to 10+ years of experience in UI/UX design, including leadership responsibilities.

Lead UI/UX Designer Responsibilities:

- Leading the design strategy and execution for web and mobile applications.
- Managing and mentoring UI/UX design teams.
- Defining and maintaining design systems and ensuring consistency across products.
- Conducting and overseeing user research and usability testing.
- Collaborating with product managers and stakeholders to define user requirements.
- Ensuring high-quality, user-centered design solutions.
- Reviewing design work and providing feedback to improve usability and aesthetics.
- Aligning design decisions with business goals and product strategy.
- Staying updated with design trends, tools, and industry best practices.
- Coordinating with developers to ensure accurate implementation of designs.

Lead UI/UX Designer Requirements:

- A bachelor's degree in design, computer science, human-computer interaction, or a related field.
- 6 to 10+ years of experience in UI/UX design with leadership experience.
- Strong expertise in design tools such as Figma, Adobe XD, or Sketch.
- Advanced understanding of user-centered design principles and interaction design.
- Experience with design systems, usability testing, and user research.
- Strong portfolio demonstrating advanced UI/UX design projects.
- Basic understanding of front-end technologies such as HTML, CSS, and JavaScript is a plus.
- Excellent leadership, communication, and decision-making skills.
- Strong problem-solving and analytical thinking abilities.
- Ability to align design strategy with business objectives.
