

Quality Assurance (QA) Engineer Job Description

We are looking for a detail-oriented and proactive QA engineer who, along with our development and product teams, will be responsible for ensuring the quality and reliability of software applications. Duties will include but are not limited to designing test cases, executing tests, identifying defects, and improving software quality processes. You will collaborate with developers and stakeholders to deliver high-quality and bug-free software.

A bachelor's degree in computer science, software engineering, or a related field is required. Candidates should have 1 to 4 years of experience in software testing or quality assurance or related roles.

Quality Assurance (QA) Engineer Responsibilities:

- Designing, developing, and executing test plans and test cases.
- Identifying, documenting, and tracking software defects and issues.
- Performing manual and automated testing of applications.
- Collaborating with developers to resolve bugs and improve software quality.
- Testing web, mobile, and API-based applications.
- Ensuring software meets functional and non-functional requirements.
- Participating in regression, performance, and usability testing.
- Developing automated test scripts using tools and frameworks.
- Maintaining test documentation and reports.
- Contributing to continuous improvement of QA processes.

Quality Assurance (QA) Engineer Requirements:

- A bachelor's degree in computer science, software engineering, or a related field.
- 1 to 4 years of experience in software testing or quality assurance or related roles.
- Knowledge of software testing methodologies and tools.
- Familiarity with automated testing tools such as Selenium or Cypress.
- Basic knowledge of programming or scripting languages such as Python or Java.
- Understanding of SDLC and Agile development methodologies.
- Familiarity with bug tracking tools such as Jira or Bugzilla.
- Strong analytical and problem-solving skills.
- Attention to detail and ability to identify defects.
- Good communication and teamwork abilities.
