

Risk Management Analyst Job Description

We are looking for a detail-oriented and analytical risk management analyst who, along with our finance and technical teams, will be responsible for identifying, analyzing, and mitigating risks related to financial systems and operations. Duties will include but are not limited to assessing potential risks, monitoring financial activities, and developing strategies to minimize losses. You will collaborate with stakeholders, analysts, and engineers to ensure secure and compliant operations.

A bachelor's degree in finance, computer science, business, or a related field is required. Candidates should have 1 to 4 years of experience in risk analysis, finance, or data analysis roles.

Risk Management Analyst Responsibilities:

- Identifying and analyzing financial and operational risks.
- Monitoring transactions and systems to detect potential risks or anomalies.
- Developing risk assessment models and reports.
- Collaborating with teams to implement risk mitigation strategies.
- Evaluating system vulnerabilities and recommending improvements.
- Ensuring compliance with financial regulations and standards.
- Analyzing data to identify trends and potential threats.
- Preparing reports and presenting findings to stakeholders.
- Supporting decision-making with data-driven insights.
- Staying updated with risk management practices and regulations.

Risk Management Analyst Requirements:

- A bachelor's degree in finance, computer science, business, or a related field.
- 1 to 4 years of experience in risk analysis, finance, or data analysis roles.
- Strong analytical and problem-solving skills.
- Familiarity with financial systems and risk assessment methodologies.
- Knowledge of data analysis tools such as Excel, SQL, or Python.
- Understanding of financial regulations and compliance requirements.
- Strong attention to detail and critical thinking abilities.
- Good communication and reporting skills.
- Ability to work with large datasets and identify patterns.
- Interest in financial risk and security.
