

Senior Digital Banking Specialist Job Description

We are looking for an experienced and strategic senior digital banking specialist who, along with our technology and banking teams, will be responsible for optimizing digital banking platforms and driving innovation in financial services. Duties will include but are not limited to enhancing system performance, improving customer experience, and ensuring secure and compliant digital operations. You will collaborate with stakeholders, product teams, and engineers to deliver high-quality digital banking solutions.

A bachelor's degree in computer science, finance, information technology, or a related field is required. Candidates should have 5 to 8+ years of experience in digital banking, FinTech, or related roles.

Senior Digital Banking Specialist Responsibilities:

- Managing and optimizing digital banking platforms and services.
- Enhancing user experience for online and mobile banking applications.
- Ensuring security, reliability, and performance of digital financial systems.
- Collaborating with IT, product, and business teams to define system improvements.
- Leading implementation of new digital banking features and technologies.
- Ensuring compliance with banking regulations and security standards.
- Analyzing user behavior and transaction data to improve services.
- Monitoring system performance and resolving complex issues.
- Mentoring junior team members and guiding best practices.
- Communicating system performance, risks, and improvements to stakeholders.

Senior Digital Banking Specialist Requirements:

- A bachelor's degree in computer science, finance, information technology, or a related field.
- 5 to 8+ years of experience in digital banking, FinTech, or related roles.
- Strong understanding of digital banking systems and financial platforms.
- Experience with mobile and online banking applications.
- Knowledge of data security, encryption, and regulatory compliance.
- Familiarity with APIs, integrations, and distributed systems.
- Strong analytical and problem-solving skills.
- Excellent communication and stakeholder management abilities.
- Ability to lead projects and improve systems.
- Interest in digital transformation and financial innovation.
