

Senior UI/UX Designer Job Description

We are looking for an experienced and highly skilled senior UI/UX designer who, along with our product and development teams, will be responsible for designing and optimizing advanced user interfaces and user experiences. Duties will include but are not limited to leading design initiatives, improving usability, and ensuring high-quality, user-centered designs. You will collaborate with developers, product managers, and stakeholders to deliver intuitive and engaging digital solutions.

A bachelor's degree in design, computer science, human-computer interaction, or a related field is required. Candidates should have 4 to 7+ years of experience in UI/UX design or related roles.

Senior UI/UX Designer Responsibilities:

- Designing and optimizing complex user interfaces and user experiences for web and mobile applications.
- Leading user research, usability testing, and design validation processes.
- Creating advanced wireframes, prototypes, and design systems.
- Working with design tools such as Figma, Adobe XD, or Sketch.
- Collaborating with developers to ensure accurate implementation of designs.
- Defining and maintaining design systems and consistency across products.
- Analyzing user behavior and improving user journeys and interactions.
- Mentoring junior designers and guiding design decisions.
- Collaborating with product managers and stakeholders to define user requirements.
- Staying updated with design trends, tools, and best practices.

Senior UI/UX Designer Requirements:

- A bachelor's degree in design, computer science, human-computer interaction, or a related field.
- 4 to 7+ years of experience in UI/UX design or related roles.
- Strong expertise in design tools such as Figma, Adobe XD, or Sketch.
- Advanced understanding of user-centered design principles.
- Experience with usability testing, user research, and interaction design.
- Strong portfolio demonstrating UI/UX design projects.
- Basic understanding of front-end technologies such as HTML, CSS, and JavaScript is a plus.
- Strong analytical and problem-solving skills.
- Excellent communication and teamwork abilities.
- Ability to lead projects and make design decisions.
