

Senior VR/AR Experience Designer Job Description

We are looking for a highly creative and experienced Senior VR/AR Experience Designer who will be responsible for designing advanced immersive and interactive experiences across virtual and augmented reality platforms. You will play a key role in defining user experience strategies, leading design efforts, and mentoring junior designers to deliver high-quality XR solutions.

A bachelor's degree in multimedia design, interaction design, human-computer interaction, or a related field is preferred. Candidates should have 4 to 7 years of experience in XR design, UX design, or interactive media.

Senior VR/AR Experience Designer Responsibilities:

- Designing complex and immersive VR/AR user experiences and interaction systems.
- Creating advanced storyboards, wireframes, and prototypes for XR applications.
- Leading UI/UX design for spatial and immersive environments.
- Collaborating with developers, 3D artists, and stakeholders to implement experiences.
- Conducting user research, usability testing, and experience evaluations.
- Integrating visual, audio, and interactive components into XR systems.
- Ensuring consistency and quality across all user experience elements.
- Optimizing experiences for usability, comfort, and accessibility.
- Mentoring junior designers and supporting team development.
- Staying updated with the latest XR trends, tools, and technologies.

Senior VR/AR Experience Designer Requirements:

- A bachelor's degree in multimedia design, interaction design, HCI, or a related field (preferred).
- 4 to 7 years of experience in VR/AR design, UX design, or interactive media.
- Strong expertise in UX/UI design for immersive environments.
- Experience with prototyping tools such as Figma, Adobe XD, or Unity.
- Solid understanding of 3D design concepts and spatial interactions.
- Familiarity with VR/AR platforms and development workflows.
- Strong creativity, user-centered design thinking, and problem-solving skills.
- Excellent communication and teamwork abilities.
- Leadership and mentoring skills.
- A strong portfolio showcasing advanced XR or interactive design projects.
