

Technical Support Engineer Job Description

We are looking for a proactive and customer-focused technical support engineer who, along with our engineering and support teams, will be responsible for assisting users, troubleshooting technical issues, and ensuring smooth operation of systems and applications. Duties will include but are not limited to diagnosing problems, providing solutions, and supporting system performance. You will collaborate with developers and IT teams to resolve issues efficiently and improve user experience.

A bachelor's degree in computer science, information technology, or a related field is required. Candidates should have 0 to 3 years of experience in technical support or related roles.

Technical Support Engineer Responsibilities:

- Providing technical support to users and resolving hardware and software issues.
- Diagnosing and troubleshooting system and application problems.
- Responding to support tickets and user inquiries in a timely manner.
- Collaborating with development and IT teams to resolve complex issues.
- Installing, configuring, and maintaining software and systems.
- Monitoring system performance and identifying potential issues.
- Documenting issues, solutions, and support processes.
- Assisting in system upgrades, maintenance, and deployments.
- Providing guidance and training to users when needed.
- Ensuring high levels of customer satisfaction and support quality.

Technical Support Engineer Requirements:

- A bachelor's degree in computer science, information technology, or a related field.
- 0 to 3 years of experience in technical support or related roles.
- Basic knowledge of operating systems, networking, and software applications.
- Familiarity with troubleshooting tools and techniques.
- Understanding of hardware and software systems.
- Strong problem-solving and analytical thinking skills.
- Good communication and customer service abilities.
- Ability to work under pressure and handle multiple issues.
- Familiarity with ticketing systems is a plus.
- Willingness to learn and adapt to new technologies.
