

Technical Support Team Lead Job Description

We are looking for a highly experienced and organized technical support team lead who, along with our engineering and support teams, will be responsible for leading support operations and ensuring high-quality technical assistance. Duties will include but are not limited to managing support teams, handling escalations, and improving support processes. You will collaborate with developers, IT teams, and stakeholders to ensure efficient issue resolution and customer satisfaction.

A bachelor's degree in computer science, information technology, or a related field is required. Candidates should have 5 to 8+ years of experience in technical support or related roles, including leadership experience.

Technical Support Team Lead Responsibilities:

- Leading technical support teams and managing daily support operations.
- Handling escalated issues and ensuring timely resolution.
- Monitoring support performance and improving service quality.
- Collaborating with development and IT teams to resolve complex issues.
- Defining and improving support processes and workflows.
- Training and mentoring support engineers.
- Managing support tickets, priorities, and workload distribution.
- Ensuring high levels of customer satisfaction and service delivery.
- Analyzing support metrics and identifying areas for improvement.
- Communicating support status, risks, and improvements to stakeholders.

Technical Support Team Lead Requirements:

- A bachelor's degree in computer science, information technology, or a related field.
- 5 to 8+ years of experience in technical support or related roles with leadership experience.
- Strong knowledge of operating systems, networking, and system administration.
- Experience with troubleshooting tools and advanced debugging techniques.
- Familiarity with cloud systems and distributed environments is a plus.
- Strong problem-solving and analytical thinking skills.
- Excellent communication, leadership, and customer service abilities.
- Ability to manage teams and handle high-pressure situations.
- Familiarity with ticketing and incident management systems.
- Ability to improve processes and lead support initiatives.
